Find. Finding your images and artwork just became incredibly easy! Our advanced XMP metadata technology is the key to annotating, cataloguing, searching, and retrieving multimedia files on your workstation or across the network in seconds. This way FotoStation can give you access to millions of files.

Process. FotoStation offers time-saving crop & drop actions into Microsoft, Adobe, and Quark applications, accompanied by powerful workflow automation. You can crop, resize, sharpen and alter the colours of images either manually or automatically to suit your changing needs.

Share. Organise images into projects, archives, or jobs – share your files with colleagues via a network. You can email, upload using FTP or HTTP, print, and create web pages from your workflows. Your images are easily accessible within a user-friendly interface, supporting 10 different languages.

Recommended end user price for FotoStation Pro single user: EUR 489 ex. VAT.

Contact your local reseller for pricing on multi user packages.
